N910

Tag 5032982009090910 (N910)
Born 2009
Sire N10
Dam N984
FD 17.1 (1yr) 18.0 (2 yr)
Price \$60 per ewe dose + GST

N910 has been judged Grand Champion August Shorn Ram at every local show he was entered in this year, which were Tenterfield, Glen Innes and Walcha (where he went on to be Supreme Exhibit). In April he then went to Sydney Royal where he was made Champion Fine Wool August Shorn Ram and then in July down to Bendigo where he was judged Grand Champion Fine Wool Ram of the show.

As a rising 2 year old, he has tested 18.0 FD, 2.9 SD, 16.1 CV, and 99.8 Comfort Factor.

This ram was an eye catcher from the day he was born. The tremendous size for his wool type together with his great neck extension and overall presence made him stand out as a potential sire very early. N910 has that same back end as his mother who was extremely wide through the hindquarter. He is perfect on his feet while having a clean head and long soft muzzle. While still being thick enough, N910 is a real free grower, with his wool measuring over 100 mm at Sydney in April.

N910 has over three generations of embryo transfer genetics on both sides of his pedigree. His sire, N10, has proven himself at Nerstane and at two Sire Evaluation sites where he has been outstanding for tops to culls ratio, high fleece weights and low micron. His outstanding mother, (N984) was probably the best show sheep Nerstane has ever bred.
