

NERSTANE SIRE INFORMATION (of progeny in the 2025 Sale)

Please look up any of these Sires on the MerinoSelect webpage for the details you require.

N404 (160404) Born: 2016 Sire: CH975 Dam: Nerstane ET Ewe 1019 (x N958)

This is one of Nerstane's most proven Sires with an impressive set of figures to go with him.

Some very well-known studs have used N404 along with some large commercial breeders with many repeat semen orders and on property sale toppers by this Sire.

There is semen available from this Sire.

N347 (190347) Born: 2019 Sire: N194 (x CH199) Dam: Nerstane Sp Ewe 151697

Another highly proven ram at Nerstane, N347 progeny generally have beautiful wools and very good WECs.

N55 (200055) Born: 2020 Sire: Sire: CH975 Dam: Nerstane ET Ewe 1019 (x N958)

N55 is a full ET brother to N404. N55 progeny are usually plainer and a bit freer growing than his older brother

There is semen available from this Sire.

N168 (200168) Born: 2020 Sire: N404 Dam: Nerstane ET Ewe 1095 (Sydney Supreme Ewe 2019)

The progeny of this ram are always heavy cutting and are generally very good for WECs. We have sold N168 semen to many clients here in Australia and also to Uruguay. There is a full brother to N168 in this year's sale in Lot 6 (230010) who is also ET bred and a top sheep.

There is semen available from this sire.

N587 (200587) Born: 2020 Sire: N404 Dam: Nerstane SS Ewe 1280 (x N26)

N587 is a son of N404. He is producing progeny very similar to himself with 7 sons in this sale and most in the top half of the catalogue. N587 sons are usually very fine with good wools.

N343 (200343) Born: 2020 Sire: T279 Dam: Nerstane SS Ewe 1311 (x N401)

N343 is a really good Sire that usually passes on his high fleece weights, low WECs, and very stylish wools.

A N343 son topped the Nerstane Sale last year.

N171 (190171) Born: 2019 Sire: N73 Australian Ram of the Year Dam: Nerstane Sp Ewe 151228

There is only 1 son of N171 in the sale this year. Really crimped wools and above average fleeceweights are typical of this Sire.

N13 (190013) Born: 2019 Sire: ES Mundy Dam: Nerstane ET Ewe 1186 (x OO 104)

1 son by our Tom Culley Supreme Junior Sheep of Sydney in 2020. A very good ram too.

CHAR-975 (130975) Born: 2013 Sire: EB Buddy Dam: ET Ewe 1067)

There is 1 son (Lot 73) by our widely used Charinga ram we called Billy. He is actually a full brother to current Sires N404 and N55.

Y -110 (Yalgoo 190110) Born: 2019 Sire: Woodyarrup 1401 Dam: Y150029

Proven Sire from Yalgoo used for his consistently fine microns and his very good WECs and body weights. This Sire is ticking most of the boxes in our breeding objective and we have kept a couple of sons to use for ourselves.

Poll Sires

Poll (PP) 200067 Born: 2020 Sire: N53 Dam: Nerstane Poll ET Ewe 151102 (x B653)

Probably Nerstane's most proven Poll Sire. N67 has performed well in some leading Stud's across Australia. Very good wools with impressive numbers is a good description of the N67 progeny.

There is semen available from this sire.

Poll (PP) N200 (190200) Born: 2019 Sire: N7 (x B333) Dam: Nerstane Poll ET Ewe 1817

We have used this ram extensively for his outstanding structure and bright, free growing wools. These rams by N200 are such good doers showing terrific spring of rib. This ram also has an extremely dominant Poll gene and having negative WECs.

Poll (PP) KP70 210070 Born: 2021 Sire: RP72 Dam: KP160514

We tried to purchase this ram in 2020. His structure, figures, and the fact that he tested PP were the reasons why we used him anyway. His progeny are generally big, bold crimping with good heads and mostly test PP.

The 2023 Drop Progeny Test Group's Sires

210672 x T279 (There is semen available from this sire.)

210455 x N315 (There is semen available from this sire.)

210587 x N404 (There is semen available from this sire.)

210292 Poll x N200 (There is semen available from this sire.)

210006 x N73

210364 x N220
